Ontario Perceptions on Municipal Alcohol and Event Taxes

SES/Osprey Media Poll

Methodology

Between August 12th and August 15th, 2006, SES Research conducted a random telephone survey of 500 Ontarians 18 years and older.

The aggregate survey results are accurate $\pm 4.4\%$, 19 times out of 20. Margins of accuracy are wider for subgroup samples. Readers should note that the data was weighted for gender and age to match the 2001 Canadian census results for Ontario. Results should be considered representative of the Ontario population. Results may not add up to 100% due to rounding.

The initiative was part of the SES Ontario Omnibus Survey and was registered with the Marketing Research and Intelligence Association of which SES is a member.

Question: The provincial government is considering changes to the powers of municipalities. I'm going to read you three statements and for each I would like you to tell me if you agree, somewhat agree, neither agree nor disagree, somewhat disagree or disagree:

b. Municipalities should have the power to impose new taxes on alcohol served in bars/restaurants as well as movie/theatre and sporting event tickets?

Group (Margin of Accuracy)	Agree	Somewhat Agree	Neither	Somewhat Disagree	Disagree	Unsure / NA
	%	%	%	%	%	%
