

Ontarians willing to pay for new sewage infrastructure

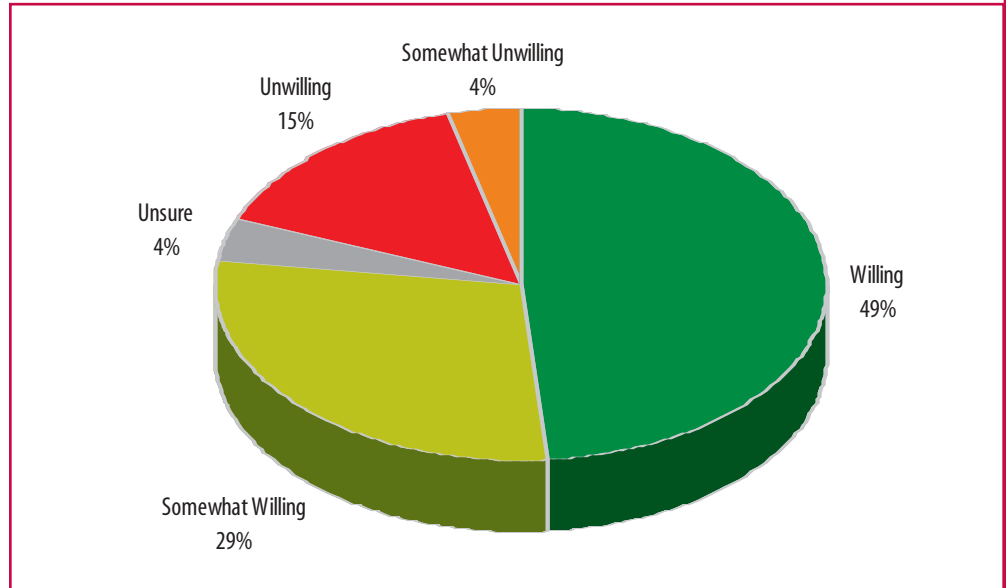

Methodology

Between August 6th and 9th, 2008, Nanos Research conducted a random telephone survey of 500 Ontarians 18 years and older.

A random telephone survey of 500 respondents is accurate $\pm 4.4\%$, 19 times out of 20. Margins of accuracy are wider for subgroup samples. Readers should note that the data was weighted for gender and age to match the Canadian census results for Ontario. Results should be considered representative of the Canadian population. Results may not add up to 100% due to rounding.

The research was registered with the Marketing Research and Intelligence Association of which Nanos is a Gold Seal Corporate Member.

Question: As you may know, many municipalities in Ontario release raw sewage into our lakes and rivers after heavy rains because municipal sewage systems cannot handle the volume of storm water and sanitary sewer water. Would you be willing, somewhat willing, somewhat unwilling or unwilling to pay more in taxes to help build new sewage infrastructure to make our lakes and rivers cleaner?

About Nanos Research

Established in 1987, Nanos Research is a full service public opinion research and management consulting firm. Nanos is regularly called upon by corporate, government and para-public clients in Canada and the United States to conduct research and provide strategic advice.

For more information on our full range of services please visit our website www.nanosresearch.com or contact: Nik Nanos at (613) 234-4666 ext. 237 or nnanos@nanosresearch.com.

Group (Margin of Accuracy)	Willing	Somewhat Willing	Somewhat Unwilling	Unwilling	Unsure
	%	%	%	%	%
Ontario ($\pm 4.4\%$)	49	29	4	15	4
Liberal ($\pm 7.7\%$)	53	29	1	14	3
PC ($\pm 8.8\%$)	43	32	6	16	3
NDP ($\pm 11.8\%$)	55	32	5	4	5
Green ($\pm 14.5\%$)	50	21	8	10	12
Female ($\pm 6.3\%$)	50	28	4	14	4
Male ($\pm 6.3\%$)	47	30	4	15	4
